Are you lucky? See if you can win a Ford car by taking a punch on the board at the Billiard Hall.

Dr. Lackner, Dentist, will be in Oyen the first 14 days of each month. Cereal 15th, to 19th inclusive.

Sibbald was very fortunate in striking a fine day for the second annual U. F. A. Picnic on July 1st.

In the electrical storm which occurred on Sunday, Mr. E. N. Chabonnet lost a valuable cow. The animal was struck by lightning while grazing.

Miss Florence White will be in Oyen every Saturday to give lessons in piano, organ, mandoline, violin and singing. For terms and further particulars apply at the Office of the Oyen News.

A DANCE will be given in Excel Hall on Friday, July 14th in aid of the funds of the Red Cross Society of that place. Music by Messrs. Stillings, Norton & Gilbertson. Admission gentlemen \$1.00. Lunch will be served by the ladies of the society.

As only Councillors Taylor, Tupper and Carr were present on July 4th, the regular meeting of the Council of the R. M. of Cereal was postponed to July 25th, when regular business will be transacted. The Council will also sit as a Court of revision, to adjust assessment appeals.

Mr. D. M. Irving left for Calgary last Saturday.

Among the Oyen business men who left for Calgary last Thursday were, the Messrs. P. H. Peterson, W. V. Miller, Jas. Lees and B. H. Dial. The latter gentleman being en route for Edmonton, where he will discuss the Oyen School situation with the authorities.

In the tennis tournament at Sibbald, last Oyen teams were defeated by Dunn and Rome of Alaska. In their first game they were victors over B. E. Kelly and Jas. Murray by the score of 8-6 and in their second game they won from S. A. Miller and C. L. Dunford 6-4. Both games were keenly contested.

Mrs. Loucks and her brother Clarence Peterson who left for Calgary last Thursday spent the week-end at Banff and returned to town this morning.

Mr. W. Ballentyne spent the weekend at Richdale.

Mr. J. H. Alexander left for Calgary this morning.

Mr. Joe Quinn, returned to town this morning from Calgary.

Under command of General Foch, the French troops which are co-operating with the British in the great offensive in the Somme River region, have made notable gains in the direction of Peronne, one of the most important strategic points along that front.

Subsidiarily they have captured Harbecourt, Feuilleres and Flaucourt, and further to the south, French infantry stormed and occupied Assevillers. They followed this success by carrying the second line of German entrenchments as far as the outskirts of Estres. Then came the capture of Buscourt and Faucourt.

Something over three miles was thus gained, which, added to previous gains, gives the French troops a clear advance of about six miles at the farthest point, to within three miles of Peronne.

Meanwhile the British, moving more slowly, but over a longer front, have captured La Boisle, where the fighting for the past two days has been of the "desert" character. The British also report "substantial progress in some places" and the repulse of many counter-attacks by the Germans.

British troops, however, have been forced back from some of the positions which they had taken early Monday morning, and it was evident that the German artillery fire had become much heavier than during the earlier stages of the battle.

Interesting Letter Received From Nurse L. E. Denton

(Continued from last week.)
"We were nearing the danger zone, but the ship passed by without further alarm. Many more armed guards have been added, who even have bayonets fixed. I have been anxious to see a whale, but a porpoise like came into view. Monday a.m. our convoys appeared and it is a great relief to have such good protectors. They look small but we know that they are powerful."

Wednesday p.m. the first sight of land and the Irish members of our family say they see the shamrock. It has been a day of suspense, but nothing has happened on Tuesday. We hear that the German subs. were after us last night and that one of our little protectors was away three hours chasing one, and also that an Italian boat was sunk. We took a different course than was expected and this sub. was waiting for us, but got the Italian boat instead. This news is supposed to have come by wireless.

Thursday our convoys left us as the night came on at 7 a.m. We still wear our life belts although all danger is practically

The Guaranty Plan In Canada

Dominion Headquarters at Montreal Standardized Credit for Time-Sale of Cars

Automobile buyers and sellers are interested in the Guaranty Securities Corporation's announcement that complete Canadian headquarters have been established in the National Trust Building, Montreal.

This means that the Guaranty Plan of Time-Payments on cars is now made available to purchasers and dealers throughout the Dominion.

What the Guaranty Plan assures to the motor-vehicle owner is indicated by what P. H. Peterson, local dealer in Ford Cars has to say regarding its success in the United States.

In its twelve months' operation across the line it has won the endorsement and co-operation of the leading manufacturers and financiers. The soundness of its business principles and the safeguards with which it surrounds the credit-sale of cars have secured for it the moral support of some of the most important financial interests in the United States.

That the buying public heartily approves of the plan is seen in the purchase of many thousands of cars on this plan. To the responsible purchaser, who for personal reasons desires credit in his purchase, it particularly appeals through the absolute privacy of the whole transaction.

Over half the dealers in the United States registered to sell on the first thirty days following the announcement. They were quick to see the advantages of being able to sell cars on the time-payment plan—and get most of the cash immediately without sacrificing a penny of their full legitimate profit.

When it is considered that the past several years, the majority of retail motor-car sales have been made on some form of credit, the big outstanding advantage of the Guaranty Plan is plainly revealed.

It substitutes for many miscellaneous forms of credit, a single standardized credit of national scope. It eliminates the "personal element" from time-transactions. It makes the sale of cars at retail the simplest and safest installment transaction there is in the world.

It strengthens the dealer's credit standing—and preserves the buyer's bank-account.

United U.F.A. Pic-nic At Sibbald a Success

The second annual United U.F.A. pic-nic, held at Sibbald on Dominion Day, was a grand success. Splendid weather favoured the holiday makers, and a good crowd was present to enjoy the entertainment provided for the occasion.

W. C. Hoskins, and a number of rigs were driven from Oyen, and all parties report having had an enjoyable time. The dance at night in Ball's hall was well attended, and Sibbald's reputation for holding enjoyable dances was considerably enhanced by the one given on Dominion Day.

over. Many slept with their clothes on, and many did not sleep at all. The first city we see is Brighton and Brighton tower. Ten o'clock we docked at Liverpool. Almost the first thing I noticed was "Chicago, Milwaukee, St. Paul, tickets here." It looked quite familiar. The most important thing here seems to be to keep the shades down and keep everything as dark as possible. A heavy fine is the penalty if you do not. There have been air raids in this vicinity lately and Orlington hospital has been warned. How would you like to go to bed, wondering if a bomb would drop in the night? We feel like looking upward every time we go out. At night we can see the searchlights from London searching for aeroplanes.

I shall try to say a little about this hospital. I can't begin to give any idea of its beauty and completeness. There are sixty-four acres of land. It has been a wealthy gentleman's estate and everything has been kept in splendid order. Flower beds, shrubs, walks, pretty gateways and the large house makes a beautiful picture. There is even a greenhouse. We have chicken coops. You know the famous Orlington hens. The buildings are on the lute system, low, low, stone buildings, built so as not to attract attention. They are painted outside a grey color, and inside some parts are tan and others pale green. The color scheme seems to be given green and tan. The woodwork is plain wood stained. Walls are all paneled with this plain wood. We have a lovely large dining room, recreation room, writing room, library, reception room, walls are pale green, ceiling and upper part of walls are tan, hanging and floor coverings dark green. There is an abundance of large comfortable chairs upholstered in large green, writing tables, piano and we hear that a Victrola is coming. Words fail in speaking of the hospital, everything is perfect, nothing missing. There are 1040 beds, 20 bed in each 20 wards, semi-private rooms, a wonderful operating rooms, three splendid tables in it. Latest kind of lights, ear, nose and throat department, psychopathic, all are complete. Bath rooms galore, shower baths, general utility rooms for each ward. In the diet kitchen we will fix all dishes for the patients, and wash all glasses, etc., in the wash room. It is truly the last word in a hospital. The kitchen they cook vegetables in eight minutes. It is done by steam, I think. The wagons which

carry the food to the wards, keep it hot at the same time. The supply rooms have quantities of everything, including blankets, pillows, bath robes, caps, hospital clothes, brushes, combs, hot water bags, etc. In fact you can think of nothing that is not there. There is even a night dining room for the midnight suppers of the night nurses. There is an ambulance room, where the ambulance can back up to the door, and in side the first information, such as your name etc. is taken, then the necessary treatment is given.

The patient is passed to the orderly, bathed, given fresh clean clothes and put to bed. There is a splendid large recreation room and theatre. In one end are tables and chairs for the "up" patients to enjoy themselves, in the other end is the stage, complete with scenery, dressing room, footlights, etc. We expect some good times here. I think you must come to visit me to get any idea of it at all. In all we have had a splendid time so far. Weather fine, service on board train and ship, all that could be expected. Here it has rained almost every day since we arrived. Sunshine one minute and rain the next. Orlington is a beautiful quiet little place. One woman said said that they never had such a big thing as this in Orlington before, and that we all looked so "happy" even if the Canadian boys are "urt." The boys look happy any way. You see I am trying to economize on paper. Now write. What you?

Free gasoline for thirty-three hundred miles--the Ford owner's savings in one year

The light, economical Ford with its smooth running engine averages about twenty-five miles on a gallon of gasoline.

Compare this with the gasoline consumption of the Sixteen-Miles-To-The-Gallon car.

Then figure the difference, having an eye on the present price of gasoline.

Six thousand miles is a fair season's travel. The Sixteen-Miles-To-The-Gallon car, going six thousand miles, burns up one hundred and thirty-five more gallons of gasoline than does the Ford going the same distance.

This means that the Ford owner saves enough during a season to pay for his gasoline for an additional thirty-three hundred and seventy-five miles.

You can travel a year and a half in a Ford for what it costs you to travel one year in the Sixteen-Miles-To-The-Gallon car.

Sunday's rain, and subsequent downpours have made life in the suburbs somewhat exciting. Members of the Tabernacle were observed climbing in and out of the kitchen window on Tuesday morning, as the approach to the front entrance was entirely cut off by a considerable depth of water. Mr. Lafferty's lot which adjoins the Tabernacle, was entirely submerged, and his house surrounded. The church and parsonage on First Ave. were also surrounded. Mr. Stata's new residence was partly surrounded and the occupants lived in constant anticipation of floating further down the Avenue. A fairly good breeze yesterday and to-days warm sunshine, however, have worked wonders and the floods are steady, if not rapidly disappearing.

WELL DRILLING! A TESTIMONIAL

Oyen, Alberta,
May 31st, 1910

To Whom it May Concern.

I, J. F. Honslick, of the Post Office of Benton, Alta Canada, do hereby state that I have for five years been hauling water for stock and other purposes from three to four miles. I tried every means for the above number of years to get water and was unsuccessful until I looked up John Ozant, of the Post Office of Oyen, Alta. Well Driller, with the reputation of getting water where others fail. Since well completed by the said J. Ozant I have been pumping three weeks and have not been able to lower the water in the well.—J.F. Honslick.

Thrifty Danes Win Trade

Quality of Danish Butter is as High That Market is Rapidly Extending

In Denmark the bread is home-baked. The women spin their own yarn which the village weaver makes into cloth, or which they knit into stockings. The women make their own dresses. Often they make clothes for their husbands and sons. The men make wooden shoes for the family, and house furniture and farming implements. And the greatest boast of Europe an example of intensive farming and dairymaking. One result is that Danish butter is eaten in countries east of the St. Lawrence and south of the equator. Vast quantities of Danish butter are shipped into the British Isles and to continental countries, but the output is so great, the quality so high, and the reputation of Danish butter so widespread, that it finds its way into lands as remote from the Danish Isles as Patagonia or Tahiti.

Justified formerly was described by geographers as a sterile waste. It is now a scene of high cultivation and the pastures are so small that every blade of grass must be turned into milk. The farmers are so proud that they tether their cows in rows and allow them to crop the grass within reach removing them to the next uncropped grass the next day and thus steadily mowing each meadow. When the far side of the plot of ground has been reached the grass upon the side at which the grazing was begun has grown enough to be cropped again. The humidity in the atmosphere keeps Danish pastures green when those of many countries are parched and the Danish butter-making grass as butter is not only interfered with by drought.

There Are No Young Left

A reliable observer who recently made the trip along the frontier of Belgium wrote: "As the young men are all gone to the front, there are no young left—plowing the stony fields."

This is a tragedy, and the full force of it comes in the words "there are no young left."

A beautiful world this is and Nature never was so lovely and bountiful as now, but the ambitions of men trample upon the flowers and rob the home.

The French Government has promised French farmers \$1.25 per bushel for all the spring wheat they grow this year.

A Man's Worth

depends upon his power to produce what the world recognizes as of value.

And when you skim around you'll find that this power—which is just power of mind and body—depends upon a considerable degree on the food one eats.

For highest accomplishment one must have the best values in food—food which builds well-balanced bodies and brains.

Grape-Nuts

FOOD

has that kind of value. It contains all the nutriment of whole wheat and barley, including the important mineral elements so often lacking in the usual dietary.

Grape Nuts comes ready to eat, is easy to digest, and contains economical, wonderfully delicious—a help in building men of worth.

Some Famous Riders

Galaxy of Riding Stars Will Give Exhibition of Daring Feats

At Moose Jaw Stampede, July 10 to 16, the best of the best known and most daring riders in the world will give an exhibition of their riding feats.

Among the most famous riders are Emory LaFrance, the present world's champion, who is beyond doubt the greatest rider who ever lived, and the "Parker" of the "Q" Ranch, Sage Creek, Alta. Parker is hardly known in the riding world, but Emory LaFrance, and these two men make a pair of stamper performers whose work on the plunging middle-aged laws is worth a journey of many miles to see.

With them will be Arza Trigg, one of the most daring riders ever produced in Oklahoma, and "Mexican Louie," a half-breed, who is known as the greatest rider ever sent out from California, and the man who was second to LaFrance at the Golden Age, Stampede last year. The fifth of this famous group of riders is Joe Macdonald, a cattle hand on a ranch near Maple Creek, who, famous throughout the north-west cattle lands as a daring and marvelous bucking horse rider who never gives up till his will mount in crowd and beaten.

The galaxy of riding stars will be with many others, have already entered the ranks of the world's best riders, while stars of equal magnitude in the fields of roping, trick-roping, stamper riding and horse show jumping, will present to make the Moose Jaw Stampede an eventful and enjoyable celebration ever held.

WHO HAS FOUND NEW HEALTH IN DODD'S KIDNEY PILLS

Philip McLeod Tells How He Suffered From Kidney Trouble for Years and How He Was Completely Cured by Dodd's Kidney Pills

Tarbol, Victoria, C. B. (Special).—Philip McLeod is just one more of the many residents in this neighborhood who have found new health in Dodd's Kidney Pills.

"I have used Dodd's Kidney Pills for years," says Mr. McLeod, "and I can tell you that they have cured me of all my kidney trouble and could get nothing to help me but Dodd's Kidney Pills. I have found them for others led me to them. Five boxes cured me completely."

"I have recommended Dodd's Kidney Pills to many of my friends. I cannot speak too highly of them."

Mr. McLeod says that he has been cured by Dodd's Kidney Pills. He is purely and simply a kidney man. He has found them for others led me to them. Five boxes cured me completely."

They will also tell you that Dodd's Kidney Pills cure all kidney troubles, heart disease, diabetes, gravel and all diseases of the urinary system. These diseases are either kidney diseases or are caused by diseased kidneys.

The Mesopotamian Expedition

It is a complete misconception to regard the Mesopotamian expedition as an unprovoked side-swing. It was necessary, it was wise, and, in spite of the fact that it must be regarded with all possible energy and vigour, it was the defence of our own interests in Persia and on the Gulf. It is wise as a means of re-asserting our position and assisting the Russian, and it must now be pursued, in cooperation with Russia, to the fulfillment of the original design—Westernization of the East.

There may be other corn cures, but Holloway's Corn Cure stands at the head of the list so far as results are concerned.

For the Summer Campers

Break your teeth in two before you throw it away.

Clear off a spot ten feet in diameter for your camp fire. Watch the fire all the time, and be sure it is out before you leave it.

It doesn't take a configuration to break a tooth. Have a small fire that will burn the coals quickly. Dry hardwood branches are best for cooking.

Throw your pipe ashes and cigar and cigarette stumps into streams only or bury them in sand mineral soil.

If you own or use engines have spark arresters on them.

Burn your brush on calm, damp days. Put out dry, windy days—From the Country Gentleman.

Ask for Mirand's and take no other.

A Non-Conductor

An East Side teacher was endeavoring to dissuade some of the simple pleasures of electricity, and said: "Can any of you children use the electric machine?"

"No, sir," said the teacher. "The old man's old man is one. They say that his car can run on a non-conductor ever since."—Philadelphia Star.

A collector of subscriptions for the brass band once came across the farmer who was noted for his narrowness. To his surprise the farmer at once consented to subscribe fully as large a sum as any he had yet received.

"Mr. Hardest," the man was addressing the farmer, "you are surely very fond of music, to give so much?"

"Oh, yes," said the farmer, "they're grand for raising the crows from the trees when they're practising, and I'm grateful!"

When Germans Find Out

The German people must demand to know sooner or later, whether their armies are in such winning this war. If they are winning it they must demand that as their moral reward they shall be given to them food and meat to sustain them in their efforts. They cannot be expected to afford achieving such glorious victories. They cannot be expected to win this war. They must demand that they must demand a struggle which it was hopeless with any supplies of men and food and of treasure, and that they must demand that they must demand to have been deceived by their military authorities as to what they were gaining. They cannot be expected to win this war. OilPull Means This

FUEL at one-half the price means lower operating costs, smaller upkeep expenses and bigger profits.

Bear in mind that the OilPull is the only tractor that will successfully burn kerosene and cheaper oil fuels at all loads, under all conditions—all the time.

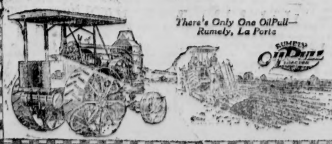

The OilPull, through deep plowing and thorough soil working, is increasing crops for a great many Dixie owners—in some cases doubling them. Burning kerosene, the OilPull adds this increase to your bank account at the lower possible cost.

A more dependable tractor than the OilPull can't be bought and you will find it able to take care of all your power jobs, whether draw-bar or belt. Two sizes, 15-30 and 30-60 horsepower.

The Bar Is Closed

The Liquor Act is Now in Force
Throughout the Province

To the accompanying whoops and yells of many throats, the bar here closed its doors last Friday night. The passing of John Hartogson, can hardly be described as quiet. Toward evening it was apparent that many were availing themselves of the last opportunity to have "little sniffer" and their laughter and shouts could be heard all over town. Notwithstanding the noise however, the crowd were good natured and there was no violence or fighting.

Owing to lack of help, the hotel dining room has been closed, but it is understood that it will be re-opened at a later date.
